

Dear Investor/Analyst/Shareholder,

Thank you for your support for Phison (8299TT). Please see the details of our September 2021 revenue below:

**KEY TAKEAWAYS**

- September 2021 revenue totaled NT\$5.738bn (the highest in a single month in history), while accumulated revenue for Jan.- September 2021 reached NT\$45.724bn, hit the record high for the same period in history.
- Phison will continue to strengthen R&D investment and maintain its leading position in the NAND controller, so that Phison can maintain steady growth in revenue and profit in the volatile NAND memory industry.

Phison Electronics (8299TT) announced today (10/7) the operating results for September 2021. Consolidated revenue was NT\$ 5.738 billion, a growth of 32% (YoY) over the same period last year, setting a new historical monthly high; the cumulative revenue of the year to September reached NT\$45.724 billion, a growth of 28% (YoY) compared with the same period last year, setting a new record for the same period in history..

PHISON 8299	Sales Revenue (NT\$bn)	YoY	Remarks
September 2021	5.738	32%	The highest in a single month in history
Jan. to September 2021	45.724	28%	Record high for the same period in history

Compared with the same period last year (YoY), the total shipments of PCIe SSD controllers in September grew by more than 42%; and the total shipments of industrial memory modules grew by 22%. In addition, for the annual growth rate (YoY) of total shipments accumulated throughout the year (January to September), the total shipments of PCIe SSD controller grew by nearly 128%, a record high for the same period in history; the total annual growth rate of industrial memory module shipments is nearly 35%, and the annual cumulative total memory bits shipments (Total Bits) also grew by nearly 45%, setting a new record for the same period in history.

August 2021 Business Highlights (PHISON 8299)	YoY	Remark
Total shipments of PCIe SSD controller	42 %	
Total shipments of industrial memory modules	22 %	
Accumulated total shipments of PCIe SSD controller for Jan.- Sep.	128 %	Record high over the same period
Accumulated total shipments of industrial memory module for Jan.- Sep.	35 %	Record high over the same period
Accumulated total memory bits shipments for Jan.- Sep.	45 %	Record high over the same period

September is the end of the third quarter. Due to its successful transformation, Phison continues to increase its revenue contribution from the Non-Consumer application storage

market. Therefore, even if there is a murmur of weak demand in the consumer retail market, Phison still handed in a dazzling operating performance. Looking forward to the next quarter, driven by the popularization of 5G wireless high-speed transmission technology, the NAND storage market will maintain its growth potential without a ceiling. Therefore, Phison will continue to strengthen R&D investment and maintain its leading position in the NAND controller, so that Phison can maintain steady growth in revenue and profit in the volatile NAND memory industry.

### **[PHISON IR Distribution List Application Form]**

### **[PHISON's Quick Facts]**

- Over 20 years experiences in NAND controller IC design and module integration.
- Over 2,500 employees globally, and more than 75% are engineers
- Over 2000 memory-related patent globally.
- 3 major focuses: enterprise, embedded, and consumer market.
- 600M average annual controller shipment.
- \$1.63B sales revenue in 2020.
- Confident that our [unique business model](#) can produce consistently strong cashflows and profits over the long-term amidst NAND memory market cycles.
- Strongly maintain long-term partnerships with our global NAND flash supply sources and with our downstream module customers.

### **[About PHISON]**

Phison Electronics Corp. (TPEX:8299) is a global leader in NAND Flash controller IC and storage solutions. We provide a variety of services from controller design, system integration, IP licensing to total turnkey solutions, covering applications across SSD (PCIe/SATA/PATA), eMMC, UFS, SD and USB interfaces, reaching out to consumer, industrial and enterprise markets. As an active member of industry associations, Phison is on the Board of Directors for SDA, ONFI, UFSA and a contributor for JEDEC, PCI-SIG, MIPI, NVMe and IEEE-SA.
